

**Job Title:** IMR – Trainee

**Employment Type:** 6-month training

**Eligible Streams:** B.Tech – Electronics & Communication Engineering (ECE) & B.Tech – Biotechnology

**Job Location:** Mohali/Onsite

**Stipened during training period:** ₹ 15,000/- per month

**About the Role:** The role involves conducting technology-focused and scientific market research, analyzing industry trends, and supporting strategic decision-making for global clients. This position offers strong exposure to technology domains, data analysis, innovation tracking, and intellectual property–driven research.

### **Key Responsibilities**

- Conduct primary and secondary market research in technology and life-science domains.
- Analyze industry trends, emerging technologies, competitors, and market size.
- Prepare research reports, dashboards, and presentations.
- Collect and validate data from databases, journals, patents, whitepapers, and public sources.
- Interpret technical information and convert it into business-friendly insights.

### **Skills & Competencies Required**

- Strong analytical and problem-solving skills.
- Good understanding of technology / life-science fundamentals.
- Ability to research, interpret, and present data clearly.
- Proficiency in MS Excel, PowerPoint, and basic data tools.
- Good written and verbal communication skills.
- Willingness to learn and adapt in a research-driven environment

### **What We Offer**

- Structured training & mentorship.
- Exposure to global markets and high-impact research projects.
- Clear career growth path in IMR and strategic research.
- Professional and learning-oriented work culture.
